

## **3-SPACE – B4 MACHINES : 25 AND 50 NEEDLES ZIP – RIBBONS - CONTINUOUS HANDLES – 3-SPACE AND MORE**

### **1.) MODEL B4 – 25 NEEDLES**

#### **3-SPACE BAND, ZIP, PERSONALIZED RIBBONS, HANDLES “B-4”**

MATTRESS BORDER “MULTI-FUNCTION” MACHINE: “DERIM-TMJ500HS-01” FOR APPLYING 3-SPACE BAND, ZIP, PERSONALIZED RIBBONS, SEMI BORDERS, AND ABLE TO PRODUCE CONTINUOUS STRIP.

#### **COMPOSITION:**

- HEAD : KANSAY CHAIN STITCH DOUBLE LOCK 25 NEEDLES;
- NEEDLE DISTANCE: 6,4MM FOR MAX SEWING WIDTH 153MM, AND MAX OUTPUT OF MATERIAL CAN BE OF 35 CM IN CASE OF FUTURE NEED FOR YOU TO WORK A FINISHED BORDER HIGHER THAN 30CM;
- ENTRY ROLLS TO POSITION RAW MATERIAL;
- PHOTO-CELLS TO MONITOR MATERIAL AND ALLOW NEW MATERIAL TO BE ADDED BEFORE OVER, THUS AVOIDING LOSS OF MATERIAL AND FAULTY WORK;
- MOTOR WITH SPEED CONTROL AND SPEED ADJUSTMENT;
- EASY GUIDES TO FAST CHANGE/ADJUST MATERIAL TO BE PROCESSED WITHOUT TOO MUCH TIME CONSUMING REGULATIONS;
- EXIT ROLLER;

#### **ALSO:**

- BINDERS FOR ZIPPERS;
- BINDERS FOR TAPE “ADJUSTABLE” FROM 8 TO 20/30 MM;
- ADJUSTABLE GUIDES FOR SEMI BORDERS (QUILTED SEMI BORDERS) IN ORDER TO PRODUCE DIFFERENT WIDTH OF THE MATTRESS BORDER;
- BINDER FOR 3D;

#### **OPTIONS FOR YOU EVALUATE:**

- 1) SENSORS FOR THREADS CONTROL – 1.100 EUROS]
- 2) WOOD CRATE (RECCOMANDED FOR SAFE SHIPPING IN CASE OF SMALL AND DELICATE MACHINES) – 240 EUROS
- 3) WE ALSO RECCOMAND INSTALLATION: 3 WORKING DAYS PLUS TRIP FROM HERE TO THERE .

**IN CASE OF NO INSTALLATION REQUESTED, WE WILL SUPPLY VIDEO MATERIAL OR VIDEO CONFERENCE TO PROVIDE AT LEAST BASIC INFO.**

**GUARANTEE: 1 YEAR FROM START UP OR ELSE IF START UP IS NOT REQUIRED. GUARANTEE IS LIMITED TO “FACTORY FAULTS DEFECTS ONLY.”**

**WARRANTY: THE MACHINES ARE COVERED BY WARRANTY FOR A PERIOD OF ONE YEAR FROM THE DELIVERY. ANY REPAIRING WILL BE MADE F.O.C. WHEN EFFECTED IN OUR FACTORY. IN CASE OF TECHNICAL SERVICE IN YOUR FACILITIES, TRAVEL COSTS AS WELL AS BOARD AND LODGING CHARGES AND THE TECHNICIAN'S FEE SURCHARGE WILL BE AT CLIENT’S EXPENSE.**

MACHINE IS SHIPPED WITH MANUALS, TOOLS AND ACCESSORIES NEEDED TO HANDLE THE MACHINE AND ITS OPERATIVITY.

PAYMENT: 30% ADVANCED AS ORDER CCONFIRMATION – 70% BEFORE LOADING

DELIVERY APPROX 50 DAYS (NOT INCLUDING FACTORY CLOSING FOR AUGUST HOLIDAYS).

CE – STANDARD

MADE IN ITALY.

## 2.) MACHINE FOR “3 SPACE” WITH A WORKING WIDHT OF 30 CM HAVING NO. 50 NEEDLES POSITION, DISTANCE BETWEEN EACH NEEDLE 6,4 MM

### A) OPTION 1 -

MACHINE FOR “3 SPACE” WITH A WORKING WIDHT OF 30 CM

HAVING NO. 50 NEEDLES POSITION, DISTANCE BETWEEN EACH NEEDLE 6,4 MM.

SEWING HEAD – (ORIGINAL NOT MODIFIED LOCALLY !!!) BY : GOLDEN WHEEL (CO-PRODUCER OF GERMAN PFAFF TECHNOLOGY.

INCLUDES:

**THREAD-BREAK SENSORS** (ESSENTIAL NOT TO WASTE LOTS OF MATERIAL!!)

BINDERS FOR ZIPPERS

BINDERS FOR TAPE “ADJUSTABLE” **FROM 8 TO 20/30 MM !!**

ADJUSTABLE BINDERS FOR FABRIC, FOAM AND NON WOVEN IN ORDER TO

PRODUCE

DIFFERENT WIDTH OF THE MATTRESS BORDER

BINDER FOR 3D

ROLLER DEVICE TO ROLL UP THE PRODUCED BORDER

ALL FEEDERS FOR MATERIAL NEEDED. (ZIP – 3D – SEMI BORDERS , ECC... )

:

**ON-REQUEST:**

**TRANSVERSAL CUTTER** : TO CUT TO PROGRAMMABLE SIZE THE STRIP, CAN BE ADDED BUT IS “OF NO NEED” IF YOU WILL USE THE AUTOMATIC HANDLE MACHINE. THIS MACHINE NEEDS CONTINUOUS STRIPS IN ROLLS . IF, ON THE CONTRARY YOU PROCESS THE BORDER MANUALLY , THAT CAN BE ADDED : 2.500 EUROS

**MARKERS**: SAME AS BEFORE. IF YOU NEED : 1.000 EUROS

**LONGITUDINAL CUTTER**: (TO SPLIT BORDER IN HALF): 1.500 EUROS

### B) OPTION 2 -

MACHINE SAME AS OPTION A) BUT ALSO INCLUDING :

**TRANSVERSAL CUTTER, LONGITUDINAL CUTTER, MARKERS FOR EDGE AND HANDLE POSITION.**

NO END ROLLER, WE SUPPOSE, IS THEREFORE NEEDED.

\*\* **SENSORS FOR MATERIAL** (ZIP-FABRIC- SEMI-BORDERS ECC... TO DETECT AND STOP THE MACHINE WHEN SOME MATERIAL IS OFF/FINISHED) : 2.800 EUROS

\*\* ADDITIONAL KITS CAN BE PROVIDED TO PRODUCE OTHER SPECIAL “BORDER” TYPES.

\*\* AS EXPLAINED IN OUR “INTRODUCTION” – DESPITE THIS “KIND OF MACHINES” CAN BE “OVER EQUIPPED” WITH MANY TOOLS ENABLING YOU TO TECHNICALLY DO A LARGE RANGE OF WORKS,

WE WANT TO WARN YOU THAT USUALLY IT IS BEST TO USE AND SET THE MACHINE TO EXECUTE FEW WELL DEFINED TASKS AND NOT THE “FULL UNIVERSE” . THIS TO PRESERVE ITS PRODUCTIVITY; ITS LONG LASTING LIFE AND INTEGRITY.

POSSIBILITY TO CREATE CONTINUOUS HANDLES LIKE AND USE IT AS “SEMI-BORDERS” ... THEREFORE MAKING A CLEAN AND NICE BORDER DIFFERENT FROM USUAL AND WITH DIFFERENT PATTERN MORE ELEGANT.

**MACHINE MADE IN ITALY - TESTED IN ITALY.  
SPARES ALWAYS AVAILABLE FROM ITALY  
INSTALLATION AND TRAINING CAN BE DONE IN YOUR PREMISES OR IN ITALY.  
ALSO BY VIDEO CONFERENCE DIRECTLY.  
GUARANTEE: 1 YEAR FORM START UP OR ELSE IF START UP IS NOT REQUIRED.**

SIZE OF THE “HANDLE-LIKE” CAN BE FROM 4 TO 15 CM EACH (USUALLY 8 CM EACH)  
THE FINISHING IS QUITE NICE AS YOU SEE. READY MATERIAL IN ROLLS MUST BE AVAILABLE  
(TO MAKE IT YOUR CAN: EITHER USE THE MACHINE ITSELF WITH TOOLS SAME AS YOU USE TO PRODUCE HANDLES, SO THEY COME OUT FINISHED AS YOU SEE IN THE PICTURE; OR INTERNALLY IF YOU CAN DO IT IN THE UPPER SECTION OF YOUR FACTORY.)

OF COURSE SEMI-BORDER DESIGN IS ALWAYS STRAIGHT LINES.  
IF YOU WANT TO USE SAME DESIGN AS THE TOP MATTRESS, YOU CAN APPLY IT TO THE 3-SPACE SECTION: THE INSIDE PART WILL BE NICELY BENT-OVER , BUT THE OUTER (EXTERNAL) WILL REMAIN UNFINISHED (AS THE ORIGINAL, UNLESS YOU OVERLOCK BEFORE USING THE STRIP ITSELF)

**E.M.CAPIALBI, DIRECTOR**
